

# NORTH CAROLINA PARTNERS IN AMPHIBIAN AND REPTILE CONSERVATION

## CASP Workshops: Learn your frog calls!

*Help conserve our state's frog and toad species by volunteering in the Calling Amphibian Survey Program!*

N.C. Partners in Amphibian & Reptile Conservation

**The Workshop is free, but registration is required;**

**To register contact  
Andy Fairbanks**

**[Andy.Fairbanks@wilmingtonnc.gov](mailto:Andy.Fairbanks@wilmingtonnc.gov)**

**(910) 794-6001**

**5pm- 9pm, March 3, 2009 @ [Halyburton Park](#) in Wilmington, NC**

**Leaders:** Jeff Hall, North Carolina Wildlife Resources Commission (NCWRC); Mike Campbell, NCWRC

**Overview:** Class will spend a few hours inside learning Anuran (frog and toad) ID and ecology and CASP protocols. We will break for dinner and then conclude with a few hours outside.

**Target Audience:** Conservation-minded citizens interested in learning more about frogs and toads. Folks that might be interested in running a Calling Amphibian Survey Program (CASP) route and volunteers that are already involved in the program who'd like to brush up on their skills.

**Topics Covered:** Anuran ID and ecology, why monitor amphibians, how to monitor amphibians, CASP protocols, and field ID of frog calls. Why Join Us? CASP is a statewide volunteer-based survey program that provides critical information for the conservation of NC's anurans. WE NEED YOUR HELP! Come learn about our frogs and toads, and be a part of conservation in action!
