

Duke University Medical Center
Department of Immunology
Seminar Series 2012-13

Date			Speaker	Location	Title/ Area of Expertise
Sept	11	2012	David Pisetsky, MD, PhD	DUMC - Medicine / Med-Rheumatology & Immunology	The Role of Microparticles in Inflammation and Autoimmunity
Sept	18	2012	Daniel R. Saban, PhD	DUMC-Ophthalmology	Resident dendritic cells of the ocular surface and their role in Th1 and Th2 immunities
Sept	25	2012	Dmitry Gabrilovich, MD	University of South Florida College of Medicine	Regulatory myeloid cells and immune responses in cancer and other pathologic conditions
Oct	2	2012	Mike Miller, PhD	Merck	HIV-1 Integrase Inhibitors: From Theory to Therapeutic
Oct	9	2012	Vojo Deretic, PhD	University of New Mexico Health Sciences Center	Autophagy - an immunological paradigm
Oct	16	2012	BASIC SCIENCE DAY - Love Auditorium & LSRC Hall of Science		
Oct	23	2012	Achsah D. Keegan, PhD	University of Maryland School of Medicine	Regulation of Allergic Lung Inflammation by IL-13 and IL-13 Receptor Signaling
Oct	30	2012	Barton Haynes, MD	DUMC - Medicine & DHVI	<i>TBD</i>
Nov	6	2012	Kareen Haas, PhD	Wake Forest University	B-1b lymphocytes-a specialized B cell subset critical for antibody responses against carbohydrates in both mice and
Nov	13	2012	Olivera (Olja) J. Finn, Ph.D.	University of Pittsburgh School of Medicine	Tumor Vaccine & Tcell Immunity
Nov	20	2012	Yuan Zhuang, PhD	DUMC - Immunology	From Thymus to Salivary Gland: How to Prevent T Cells from Getting into Autoimmunity
Nov	27	2012	Yun-Cai Liu, PhD	La Jolla Institute for Allergy and Immunology	Protein Ubiquitination in Immune Regulation
Dec	4	2012	Paul Love, PhD	NIH/NICHD	New insights into the role of TCR ITAM multiplicity in T cell development and effector function

Time and Location: 4:00 PM, 143 Jones Building
