

The 2005 Howard Hughes Lecture

Joseph DeRisi

2004 MacArthur Fellow

Associate Professor of Biochemistry and Biophysics
at the University of California, San Francisco

BIOLOGY SEMINAR

Malaria Genomics

4:00 p.m. • Hance Auditorium • Chambers Building

PUBLIC LECTURE

Emerging Pathogens and Genomic Technology

7:30 p.m. • Smith 900 Room • Alvarez College Union

Tuesday, April 26

Joseph DeRisi is a molecular biologist who uses genomic technologies to study infectious diseases. He recently helped identify the SARS virus, and is currently analyzing the parasite that causes the most common form of malaria.
